

Bosch Alarm App Setup

MyAlarm iFob Control — step-by-step

Follow these 7 quick steps to get your alarm connected and controlled from your phone. It only takes a few minutes.

1

Send us your details

Text or email us your **full name** and **mobile number** so we can create your account.

2

Watch for our SMS

We'll set up your account and send you a text message from **MyAlarm**. Keep an eye on your phone — you'll need the details in that SMS for Step 5.

3

Download the app

Search for and install the **MyAlarm iFob Control** app from the App Store or Google Play.

4

Open the app

Launch MyAlarm and tap **Allow** when it asks to send you notifications, so you get alerts from your alarm.

5

Set up your new site

Tap **Setup New Site** and enter the following (your Panel Serial Number and App Code are in the SMS from Step 2):

SITE NAME

PANEL SERIAL NUMBER

PANEL APP CODE

--	--	--

Choose any name you like for **Site Name** — e.g. "Home" or "Office".

6

Enter your Alarm PIN

Enter your existing 4-digit alarm PIN.

USER ALARM PIN

--

7

Save your site

Tap the **save icon** in the top-right corner to finish. You're all set — your alarm is now ready to control from your phone!

Need a hand? If you get stuck at any step, give us a call on **1300 886 313** or email **admin@jbsecurity.net** and we'll walk you through it.
