

NYX CCTV — Retrieving Footage

Search & Backup to USB — step-by-step

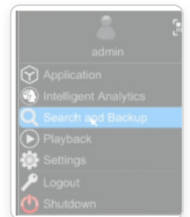

Use **Search and Backup** on your NVR (recorder) to find footage and export it to a USB drive.

- 1 Insert a blank USB drive into the NVR.

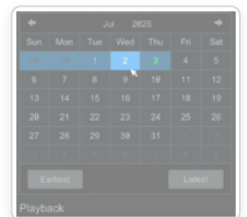

- 2 Go to the Start menu on the bottom left
Click on “Search and Backup”.

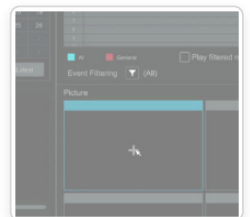

- 3 Click on “By Time”

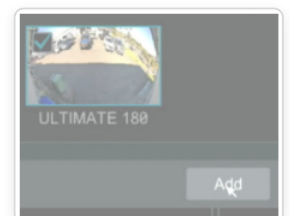

- 4 Select the date of the incident

- 5 Select the camera(s) you want to back up
Click on the + sign.

- 6 Click Add

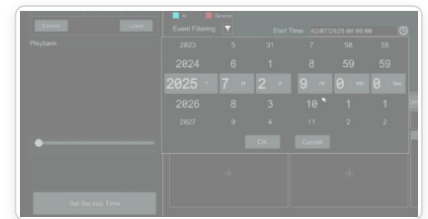

NYX CCTV — Retrieving Footage

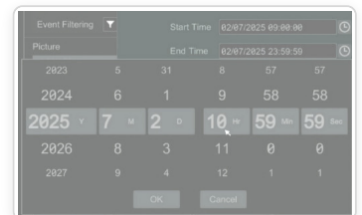

Search & Backup to USB — step-by-step

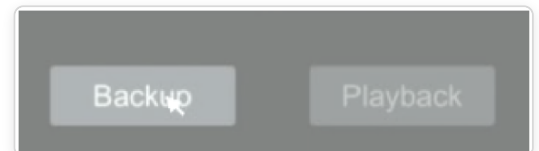

7 Click on “Set backup time”

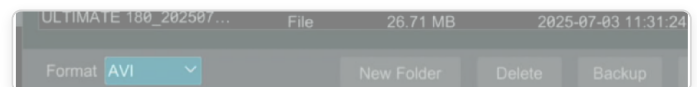

8 Select the start time and end time

9 Click on Backup

10 Change the format to AVI

11 Click backup again

12 Wait until it completes backing up before removing the USB stick
Use VLC Player to play the footage back.
